Good Morning, Pre-K SPED Teachers,

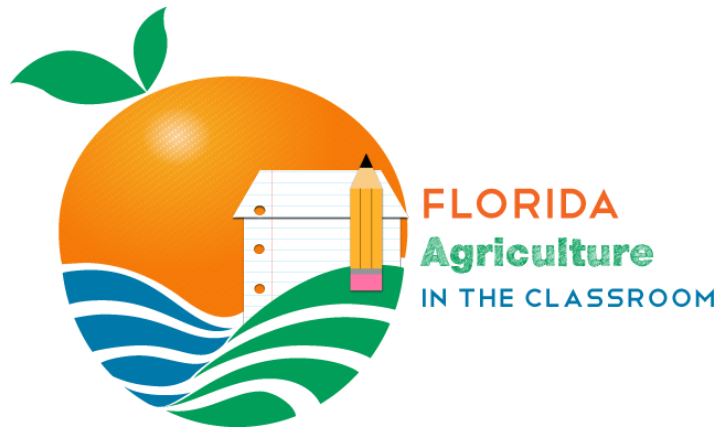

Below you will find information regarding a grant for which PreK-12 teachers may apply in order to include agri-science (gardening) in their classroom activities.

Regards,

Alex Lopes

Instructional Supervisor

Prekindergarten Program for Children with Disabilities

## Florida Teacher Grants Available

Florida Agriculture in the Classroom, Inc. (FAITC) is once again offering Teacher Grants and School Garden Mini Grants to Florida pre-kindergarten through 12th grade teachers and agri-science teachers seeking funding for projects that educate students about the source of their food, fiber and fuel.

Eligible projects include: Establishing new school gardens, maintaining existing school gardens, conducting an embryology project to educate students about the life cycle of chickens, establishing a classroom farm on paper to teach economics and more.

Eligible applicants are certified Florida teachers who will use these projects to teach reading, writing, history, science, social studies, math and other disciplines. Teachers who have received a FAITC grant before can apply again if they submitted Final Reports for their previous grant projects.

Applications for Teacher Grants are available [Here](#). Six hard copies of the application are due in the FAITC office on or before Oct. 1, 2015. The first 40 complete applications will be accepted. Teacher Grant projects can include school gardens and animal science projects such as embryology, aquaculture and other such projects.

Applications for \$500 School Garden Mini Grants are available [Here](#). The mini grant application is an online application and takes about 30 minutes to complete. School Garden Mini Grants can only be used for school gardens that grow edible fruits, vegetables and herbs. For more information about both grants, email [faitc@ifas.ufl.edu](mailto:faitc@ifas.ufl.edu)
